CEO's Message

Emerging from the challenges of the COVID-19 pandemic, this year has been one of resilience and recalibration. We streamlined our operations to adapt and focused our resources where they matter most—meeting children face-to-face at schools and delivering impactful value education programs. Each interaction has reminded us of the difference these connections make, reinforcing our commitment to growing sustainably and thoughtfully.

We've learned much about raising support through our programs, which will be crucial as we expand initiatives like GoCycle into new territories. Our sustainability journey is driven by our dedication to "move with the movers"—those who share our vision and drive. Volunteers have been a remarkable asset, bringing both heart and hands to our work. To our partners, thank you for your steadfast support. Together, we're building a future for our youth with values that last a lifetime.

With gratitude,
Silvester

Vision

Values in Young people, transformation in communities.

Mission

SPEAK

S – Sow Leadership Incubators for Leadership Multiplication.

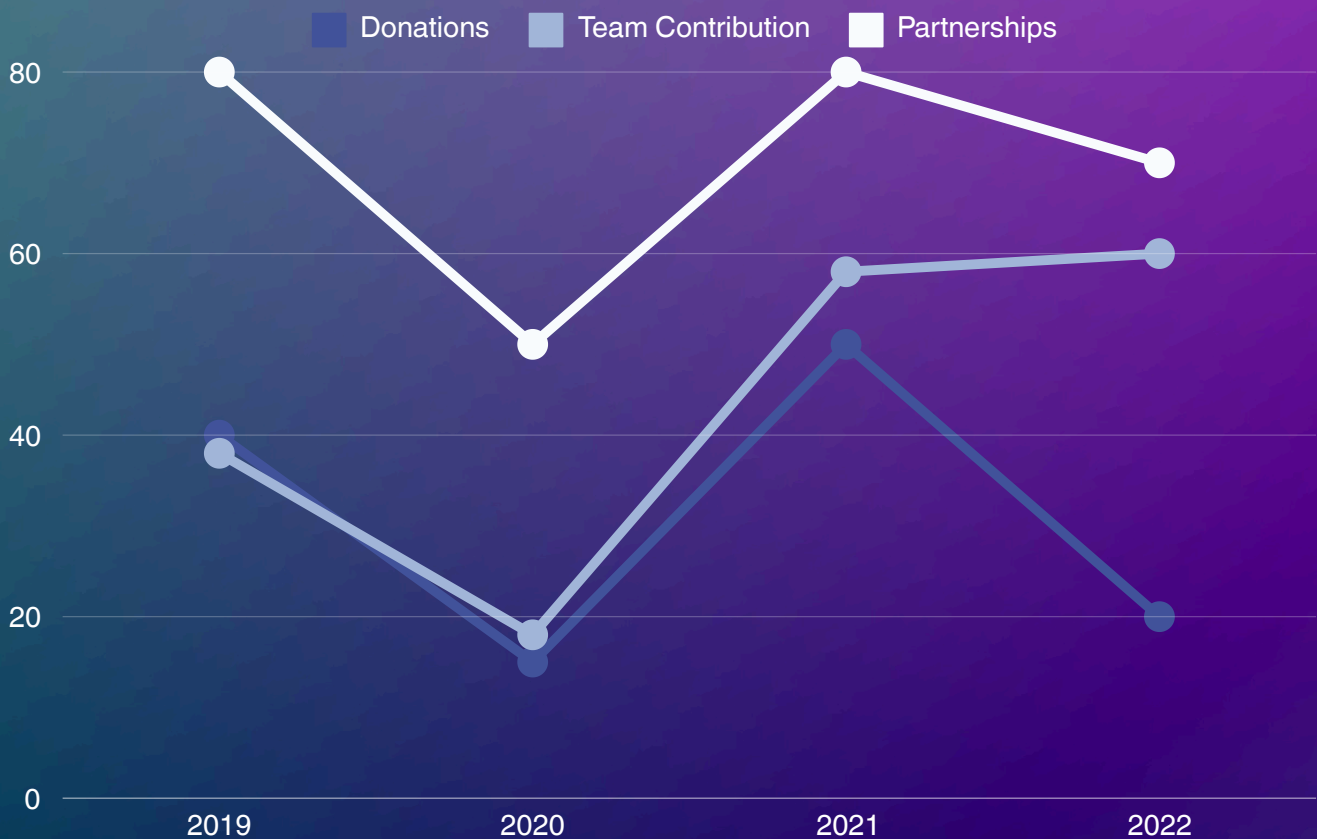

P – Partner with like minded institutions to train children to be leaders with good values and liberating children at risk through co-developing resources.

E– Equip and Enrich children to be leaders today! Build curriculums, programs, trainings and modules that enable a child to know his/her purpose in life.

A– Advocate the need for focussing on their roles and responsibilities in liberating children at risk by running awareness programs.

K – Kindle Hope through inculcating strong Values.

Annual Revenue

The graph depicts the fund raising proportion in terms of who contributes for the projects at Game changers.

The joy is to see the contributions from team is at a steady increase which is exciting. This shows that the team believes in what we do and see a responsibility to contribute. Donations have been on the decline, a strategy is being worked upon to improve it. Partners have always been a strong contributing factor in keeping project at Game Changers performing well.

Financial Statements

INR	2021	2022
Revenue	357000	58000
Expenses	355000	57250
Balance	2000	750

This year has been one of scaling down and introspection. We done only that which was needed and raised revenue only for what was needed, hence the decline.

One Year Review

Two major projects this year that have been an area of focus were values education and GoCycle. With values education we engaged with Bethany High, Karnataka Sports Network and Child Focus India. With GoCycle the focus was on smaller expeditions encouraging more active participation. GoCycle this year was able to engage 4000 students across Kanakapura, Chamarajnagar and Ooty. The expedition lasted 3 days and covered 300km. The GoCycle team met for a time review, reflection and looking ahead at Ooty after the expedition.

75% of audience for the value education program were engaged through GoCycle, 18% through a dedicated value education curriculum, 2% of these children had special needs and 6% of the audience were community leaders, empowered to engage children actively.
